ACADEMY of GENERAL DENTISTRY FOUNDATION

Corporate Partnership Program

Join the fight

The Academy of General Dentistry Foundation (AGDF) is the philanthropic arm of the AGD, dedicated to advancing the oral health of the public by empowering general dentists. Our mission is to promote oral cancer awareness, risk factor prevention, and diagnostic training for dentists, with the goal of identifying and treating oral and oropharyngeal cancers in their earliest and most treatable stages.

The Need for Action is Urgent

Oral and oropharyngeal cancer is the sixth most common cancer worldwide, and over 54,000 new cases are expected in the U.S. this year alone. Early detection is critical — and dentists are often the first line of defense, being in the unique position to spot early signs of this deadly disease. Unfortunately, these cancers can often go unnoticed in their early stages, underscoring the importance of preventive care and training for dental professionals.

The Power of Partnership

With your donation, we will be able to reach even more dental professionals and patients, ensuring that early signs of oral cancer are detected and treated in underserved populations and at-risk individuals.

Join us in this essential mission, and in return, your company will enjoy the benefits outlined in our “Corporate Donor Benefits” grid on the next page.

How Your Corporate Partnership Makes an Impact

The AGD Foundation needs corporate partners like you to expand our outreach, provide training to more dentists, and save more lives. Your support will help fund programs that bring life-saving oral cancer screenings and awareness campaigns to underserved populations and at-risk individuals. You can expect a reach of over **40,000 AGD members** and local communities.

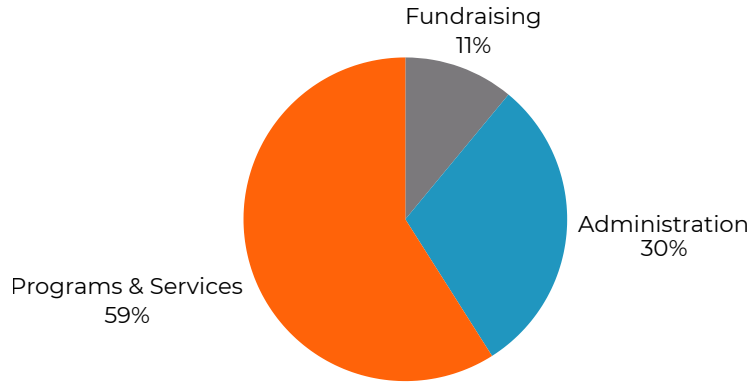
The AGDF Grant Program

The AGDF Grant Program offers support to AGD constituents and nonprofit community-based outreach programs in the U.S. and Canada that provide complimentary programs that promote oral cancer awareness, education, and/or screening that is independent of standard dental practice.

Free Oral Cancer Screenings

The AGDF will offer free oral cancer screenings and risk factor prevention education materials for attendees and the facility/hotel employees during AGD Scientific Meeting.

Where Do Our Funds Go?



For information about corporate donor opportunities, contact Donna Stelling-Gurnett, Executive Director, AGD Foundation.
